

## **FACT SHEET**

**KÇ report 1.**

**2023 Dec.**

A 2-Week Study was Conducted to Find Patients Suitable for the Purpose of the Project.

And 40 Patients Were Reached With Regional Support.

Situation Determinations Were Made Through Preliminary Phone Calls

It was deemed appropriate to collect the patients in Hatay for on-site detection and secondary examinations.

## First TEAM

A Team of 5 People Went to Adana.

Dr. Levent Köstem,

Ercan Tural,

3 X Ayder Staff

## FLOW

3 of the first 10 patients had their first examination in Adana and 7 in Hatay.

AccLAB agencies provided airport transfers and flight tickets for the patients to be brought to Izmir in groups of 5 with a companion.

A special discounted full board agreement was made with Izmir Ontur Hotel.

Ontur Hotel was chosen due to its short distance to the hospital, accessibility standards, qualified staff and support for the project

## **IZMIR PART**

1st Group 31 October – 3 November

2nd Group 6 November - 9 November

3rd Group 16 November – 19 November

4th Group 22 November – 25 November

## **TOTAL**

20 Patients and 17 Companions Were Hosted.

Each Group was Examined at Eşrefpaşa Municipal Hospital.

They had their second examination in terms of Orthotic Prosthesis on the same day.

## In summary

Of the total 20 patients, 11 were women, 8 were men, and 1 was a child.
